

Designation: Python Developer

Job Reference ID: WTAHMPTN

Relevant Experience: 4-8 years

Position(s): 2

Location: Ahmedabad, Pune

Contact: careers@wishtreetech.com

Job Description

- Must possess strong analytical skills to be able to break down complex problems into smaller atomic units of work
- Work closely with Project Managers to understand the project and business needs
- Design and implementation of low-latency, high-availability, and performant applications
- Developing back-end portals with an optimized database
- Writing effective APIs for integration with other systems
- Collaborating with developers, designers, and the rest of the team to deliver well-architected and high-quality solutions
- Perform peer code reviews
- Integration of user-facing elements developed by front-end developers with server-side logic
- Implementation of security and data protection

Requirements

- Extensive experience in Python (atleast 4 years of programming experience)
- Knowledge of Python web frameworks like Django(preferred), Flask
- Familiarity with some ORM (Object Relational Mapper) libraries
- Able to integrate multiple data sources and databases into one system
- Understanding of the threading limitations of Python, and multi-process architecture
- Basic understanding of front-end technologies, such as JavaScript, HTML5, and CSS3
- Understanding of accessibility and security compliance.
- Knowledge of user authentication and authorization between multiple systems, servers, and environments.
- Understanding of fundamental design principles behind a scalable application
